

Message from Mr Maltby

12th March 2021

Good afternoon,

I would like to begin my weekly email by thanking colleagues for their kindness toward our students at this time. I am truly proud of their professionalism and compassion. Holbrook Academy remains a caring school which treats our students as individuals and I think this week demonstrated that kindness. This is an Academy to be proud of.

I have also recently made the decision to rename the old sport's centre the Dr Letman Centre. It is a centre which will continue to provide sporting facilities to both our students and community and yet the change of name on this building is a timely reminder of a wonderful Headteacher who I know is missed by so many. I will work alongside our students and colleagues to ensure we have a formal and reflective event for this newly named centre at a time when it is possible for us to be together again.

I do understand how challenging this time is for so many within our community and I hope that we, as a community, can maintain and nurture our sense of togetherness.

Tom Maltby
Headteacher
