

# How to read the tables

Schools are ranked on the average points achieved per pupil in eight GCSEs or equivalent qualifications at 16. Rankings are based on unrounded data. Where schools have an equal points score, the percentage of pupils achieving grades A\*-C in English Baccalaureate (EBacc) subjects is used as a

tie breaker. This comprises GCSEs in English, maths, two or more sciences, a language and history or geography if schools are still tied on these measures, those with a higher number of pupils will take preference. Schools with five or fewer pupils taking GCSE or equivalent are excluded as are special schools. Some GCSEs which are regulated by the DfE are included. Others are not, which affects scores for some schools. Independent schools are not included as many take GCSEs in greater numbers and the scores and grades recorded by the DfE do not accurately reflect achievement in these schools.

GCSEs	EBacc	A-C	Progress	A-level grade	Points
Number of pupils sitting GCSEs (aged 15 or 16)	Proportion of students gaining the EBacc (which comprises A*-C GCSEs in English, maths, two sciences, a language and history or geography)	Five or more GCSEs at A*-C including English and maths	Average pupil progress in eight subjects	Average grade per entry at A-level, IB diploma or Pre-U. Based on Department for Education tariff	Average points per pupil at A-level or other sixth form qualification

## National School League Tables
